Top Issue On Your Block	Top Issue Categor	Neighborhood	Street Name
1. Deer are too populous. I'm not sentimental, I have biology training. They are eating the understory in the pockets of woods and our yards. That means when the large trees age and die, there will not be smaller trees to take their place. Ecological nightmare, really, with no predators and no real wise stewardship of the population. 2.Kids. Mostly good kids right now, but many unsupervised as they get older are not learning to respect property/neighbors/eachother. 3.. I suppose dogs that go to the bathroom in our yards	Pests	Churchill Valley	Penny Dr

Speeding drivers.Municipality will do nothing about the flooding on my street. The chambers were concreted in many years ago and municipality will do nothing about it.The sewage authority ignores and states it will cost too much money to repair. Our street gets all the runoff from the cemetery, Sycamore Drive and Frankstown. We have the only drain for three streets and the cemetery. My gardens have been wiled out 5 time in my 23 years here. With each heavy rain, not flooding rain, I lose plants and bulbs. They do patch work which never solves the problem.New neighbors moving in do not have pride with their properties.Landlords not up keeping their rentals. A dead pine tree is going to fall across Glenfield soon.	Speeding	Crescent Hills	Glenfield Dr

Street sweeping! Tree care! Blackridge is NOTORIOUS for having old trees at risk of falling during storms. The amount of leaves is near impossible to care for/bag unless you pay someone or don't have a job. Other neighborhoods have trucks that come around and suck/sweep the leaves if you get them into the street. SO many trees and branches fall on homes, cars, in the street. Of course, in theory, it's the homeowner's responsibility. But the price of tree trimming and removal is INSANE. Absolutely not an option. So these trees, which are at the end of their lifespans, are at greater and greater risk for falling, damaging property, and becoming an even BIGGER issue.	Street cleaning	blackridge	Blackridge Ave

No one knowing how to care for the larger trees in the neighborhoods and the trees falling down. We need a program that takes care of trees to ensure the neighborhood isn't paying hefty fees for emergency tree service, utility lines being torn down, etc. Caring for the trees, or at least creating a program that helps them to know how to care for them would be helpful. The trees also preserve energy costs and decrease flooding capabilities for our neighborhoods, so they are of vital importance to keep and care for.	Trees	Blackridge	Hawthorne Dr

Neighborhood

Street Name

Getting the State to remove a fallen tree along Saltsburg Road so pedestrians don't have to walk around it by walking out onto to road. Its been on the side on the road for almost 2 months. Also trimming trees along the guide rail between Leechbugh and the Library at Stotler Road for the same reason. But, slowing down traffic on Saltsburg would also make it safer. I have seen many accidents on that road. Also enforce the speed limits in Penn Hills. The 25 MPH on Universal road is TOTALY ignored. A few years ago there were 3 car accidents and a pedestrian fatality in front of the golf course involving an elderly man walking along the road looking for stray golf balls.
